AngelVision has been listed as one of the fastest growing companies by Inc Magazine. Company founder and CEO Mike Jingoian has said, "I guess our strategy worked since it landed us on the Inc. 5000 list for a seventh straight year."

The digital marketing industry has grown exponentially in recent years and has seen a sharp increase in the number of competitors. But Jingoian isn't worried, "Lots of companies can make nice looking videos, but it's the message that counts."

"We recently received our 1000th customer success story. That's 1000 people who took time to tell us how we have positively impacted their businesses. It's a good thing that I'm earning all these karma points in exchange for all the trouble I've caused," jokes Jingoian.

AngelVision Technologies was founded in Portland, Oregon in 2001. The company's signature product is the Impact Movie, an internet video that is mainly used as a sales promotion tool. The company also provides an array of unique solutions like Bulk Books, Custom Books and Mobile Marketing. In 2011, Founder and CEO Michael Jingoian was honored as the Marketer of the Year by the American Marketing Association of Oregon. To learn more, visit: www.AngelVisionTech.com.
